MIN-HATC-5-C

COMPONENTS NEEDED:

Rear Shade Installation

MINI 5DR
MIN-HATC-5-C

COMPONENTS NEEDED:

STEP #1

ATTACH CLIPS ON SHADE EDGES

A photograph showing a person's hands attaching a black plastic clip to the edge of a rear shade. A blue arrow points from the clip to the shade edge. A circular inset provides a magnified view of the clip being attached to the textured edge of the shade.

STEP #2

POSITION THE REAR SHADE

A photograph showing a person's hands positioning a rear shade into the car's interior frame. A dashed white arrow points downwards, indicating the correct alignment of the shade.

STEP #3

INSERT CLIPS BEHIND INTERIOR TRIM

A photograph showing a person's hands inserting a clip behind the interior trim of the car. A blue arrow points from the clip to the trim. A circular inset provides a magnified view of the clip being inserted into the trim.

STEP #4

REPEAT THE PROCESS ON OTHER SHADE

A photograph showing the same process being repeated on the other side of the car. A blue arrow points from the clip to the trim. A circular inset provides a magnified view of the clip being inserted into the trim.

STEP #5

ENSURE SECURELY FITTED IN PLACE

A photograph showing the final installation of the rear shade. White arrows point outwards from the shade, indicating it is properly seated and secured within the frame.
