Hinweise zur Vermeidung von Fehlern beim Kleben

Recommendations for the prevention of errors during gluing

- Die zu verklebenden Oberflächen müssen sauber, trocken, fett- und staubfrei sein The surfaces must be clean, dry, grease- and dust free
- Silikonhaltiges Cockpitspray ist unbedingt zu vermeiden Cockpit spray which contains silicone has absolutely to be avoided
- Nach dem Reinigen mit dem Reinigungstuch darf erst nach vollständigen Abtrocknen verklebt werden To be used only after complete drying and cleaning with cleaning cloth
- Die Oberflächentemperatur der Klebefläche soll während des Aushärtezeitraums (24 bis 48 Stunden) nicht unterhalb von 16°C und oberhalb von 35°C liegen. Direkte Sonneneinstrahlung ist im Aushärtezeitraum zu vermeiden The surface temperature of the adhesive surface during curing time (24 to 48 hours) should not be below 16°C and not over 35°C. Direct sunlight should be avoided during curing time

- Der Klebehalter sollte beim Ankleben mindestens 30 Sekunden fest angedrückt werden The adhesive holders should be pressed firmly for 30 seconds during gluing.
- Die vollständige Klebekraft wird erst nach 48 Stunden erreicht Full adhesion is reached after 48 hours only
- Der Sonnenschutz darf erst nach Erreichen der vollständigen Klebekraft eingebaut werden und muss spannungsfrei zwischen den Clips fixiert sein

The Sonniboy has to be installed only after reaching the full bond strength and has to be fixed without tension between the clips
